Modifications

None

Maintenance Records

I am the 3rd owner. I have some of the maintenance records from the 2nd owner available for review.

Vehicle's History

This is a California car. The first owner was an owner of a winery in Napa Valley, CA. She only put on the car approximately 12,000 miles. The second owner purchased it from a Mercedes Benz dealership and only drove it 6500 miles. When I purchased this car, the tires were the original tires. The brakes were the original brakes and the soft cover was never previously used. All in all, it looked as if it just left the show room floor. An exceptionally clean car.

How I found / got this vehicle
